

RFID 2018

The 6th international EURASIP workshop on RFID technology

Preliminary CALL FOR PAPERS

RFID has evolved into an active multidisciplinary area of research and development, composed by a broad spectrum of fields. The 6th international EURASIP workshop on RFID technology will provide a premium forum for presentation of the most recent research in this technology. Aside from the regular presentations, the conference will include keynote addresses with speakers from both industry and academia. This call for papers intends to solicit contributions in all areas pertinent to RFID.

TOPICS include, but are not limited to:

- Modeling, Simulation and Performance in RFID
- Electromagnetic field measurements
- Ambient intelligence based on RFID labeling
- Standards and communication protocols
- Antenna Design
- Modulation schemes for RFID
- Implementation issues
- Inductive coupling for DC supply
- Multi-frequency and broadband tags
- Near field communications
- Smart and programmable tags
- Sensor networks with RFID
- Manufacturing processes for RFID tags
- Applications and industrial experience
- Internet of things
- Security issues and protocols

SUBMISSION GUIDELINES

Authors are encouraged to submit original, unpublished work for presentation at the workshop in the form of posters and/or full papers. Acceptance shall be based on full papers. More information at:

<http://www.eurasip-rfid.org/>

IMPORTANT DATES

Submission: May 1, 2018
 Notification: May 31, 2018
 Final version: June 29, 2018
 Conference: Sep 11-12, 2018

ORGANIZING COMMITTEE

Stoyan Iliev
 Maurizio Rebaudengo
 Markus Rupp
 Javier Vales-Alonso
 Martin Slanina

TECHNICAL PROGRAM COMMITTEE

Holger Arthaber
 Ana M. Bernardos Barbolla
 Aggelos Bletsas
 M. Victoria Bueno-Delgado
 Alessandra Costanzo
 Renato Ferrero
 Enrico Ferrera
 Filippo Gandino
 Heyno Garbe
 Apostolos Georgiadis
